Office of Legislative Counsel

Thursday - 27 February 58

50X1-HUM

Delivered to the staff of the Senate Foreign Relations the corrected transcript of the DCI's appearance on 7 February 1958. Also furnished additional information which had been requested on comparison of economic trends in Communist China and India. The staff was informed that the DCI did not believe it possible to clear any part of the transcript for publication. After the master copy has been marked from our corrections we will secure a copy for retention.

Mr. Howerton and Mr. Warner reviewed the executive session transcript before the Senate Appropriations Committee on 26 February 1958. There was no classified information in the transcript and the Department of Commerce officials have been so informed and they in turn will advise the staff of the Committee.

JOHN S. WARNER
